BEAVER SALOON. ort Street. - Opposite Wilder & Co.

Royal Perquisites.

of souls." He told her that his thoughts upon the former subject were too deep for adequate expression, but he assured her that he believed in the transmigration of souls, if she would let him spell it sole, as he had just had a new pair of patent leather pumps stolen and would like very much to know in which direction they had mi-

Torontoes. The weight of expert opinion is wholly against the notion that the use of fornatoes has anything to do with the producing of gancer. From time to time the notion finds expression, to be comfacted by the best of testimony and professional judgment. The emitvation of the fornato has produced fine varieties, and they are not only a valuable addition to table delicacies, but perform a distinct medicinal office, acting especially and academic means to have "New York" against the notion that the use of tomatoes

BIBLE AND BABCOCK TEST. Bringing to Time the Kickers Among

Talking about the Babouck test an old fellow cald, "That Balcock test can beat the Bible to making people hemmt." I have tried both. It makes a man honest to his neighbor, and it makes the man honest toward the cow and honest toward inneelf. It makes him feel like shouting, "What shall I do to be saved?" and be begins to place the dairy business in the line of intelligence, and the result is we are doing what I never saw the like of before. The Babcock test is simply this: Both the method and results when We take 17.0 continueters of milk in rup of Figs is taken; it is pleasant

and refreshing to the taste, and acts a small bottle siesped for the purpose, a tenily yet promptly on the Kidneys, iver and Bowels, cleauses the system effectually, dispels colds, head-sebes and fevers and cures habitual uniquation. Syrup of Figs is the ally remedy of its kind ever projected, pleasing to the taste and accisced, pleasing to the taste and according to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most bealthy and agreeable substances, its and you find in 17.6 centimeters of any excellent qualities commend it. to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 50 cant bottles by all leading druggers. Any reliable druggist who any not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.

That indicates the per cant of hutter fat is devery 100 pounds of milk. If a man brings me 100 pounds of milk, with 4 per cant of fats, all right, or if only 2 per cant all right—he gets just that much to his credit, and no more, no less. If he waters his milk, he waters himself, and be doesn't water his neighbor at all, as by the old co-oper alive process. The system is deliant. ative process. The system is delight CALIFORNIA F'G SYRUP CO. ful, and the effect upon the intelligence of the people is grand. Plenty of farm urs' boys use it. They go around testing Fort St., upposite Pantheon Stables. ers' boys use it. They go around testing HOBRON DRUG CO. nows for so much a head. One boy of It years tests any number of cows for 5 cents a head. And now they are begin-ning togent the boy down too. The milk Firemen's Fund, London and Globe

can be tested at any time. We had a great deal of difficulty in starting a certain number of our patron-There are always a set of kickers, you know. These objected so strongly that we laid this scheme before them. We had two vats—one called the Jersey becomes, through the drain of them to America, a thing of the past for us, it may be well to say a few words about things which very few people have ever seen and henceforward have little chance of seeing. The word "specimen stone" explains that it is agem of the utmost perfection, but few know how rare and precious it is and how little it differs to the eye of any but to expert from an ordinary example of this may be well to say a system of absolute fairness. All you kickers who don't want your milk tested we will pool together, and an expert from an ordinary example of this kind. Specimen stones are masculine luxuries. They are never set, because oven the most delicate setting might hide defects which would make them comparatoologically and the setting the setting might hide defects which would make them comparatoologically and the setting might hide defects which would make them comparatoologically and the setting might hide defects which would make them comparatoologically and the setting might hide defects which would make them comparatoologically and the setting might hide defects which would make them comparatoologically and the setting might hide defects which would make them comparatoologically and the setting might hide defects which would not be setting might hide defects fects which would make them compara-tively valueless. The desire to possess them constitutes the last infimity of ne-blemen, for not only are they the most con-centrated possible form of property, but the appreciation of them is a most exclusive form of culture. the appreciation of them is a most exclusive form of culture.

It may seem strange, but it is true, that there are probably not 50 persons in England who can tell a diamond worth 2100 a caract from one worth 125, and of these 50 not a dozen are jevelers. The trade in specimen stones is wholly in the hands of four or five great firms, and minor dealers, who have a greater for this class of most of them. They didn't believe in them. their own honesty. - Ex-Governor W. S. LUCE,

four or five great firms, and minor dealers, who have no custom for this class of gems, know almost as little about them as the laity. It takes years of practice, with such rarity of opportunity as the marked affords, to train the eye to recognize exactly the orthodox color of the ruby, emeraid or sapphire, and to distinguish a brilliant of the first water from an ordinary "fine stone demands a delicacy of vision which most persons could never acquire.

Stones may be divided into four distinct classes. Poor stones, obviously bad in color and full of "clouds," "flaws" and "feathers" may be beaght one marvels who buys them) at comparatively exceedingly low prices. The value of two rubies of the maters are charged into fatty substances that have a most important stances that have a most important stances that have a most important value of untrition. So the dairyman should have a clear understanding of diseases for six years, have been in the diseases for six years, have been in the hospital in San Francisco but have found nothing that has benefited me so much as Viayi.

I would recommend it to the suffering only to be seen on the persons of those who io all that may be possible to encourage the making of the widest variety of cheese and the large sale and use of it.

For domestic use as well as for sale

ous quantity before unconspicuous quali-ty for the latter to prevail.—Pall Mall Budthere are many kinds of small cheesthat may be made of both full and skimmed milk with advantage by those who have the milk. In European coun A remarkable list of royal perquisites might be made out, and it is very evident that our gracious sovereigns does not receive in the annual course of events one-tenth of the articles to which she is entitries, where cheese forms a more fre are considerably more than a hundred varieties of this kind of cheese mrde, of such sizes as may be eaten at one meatied. She might not know what to do with them, but that is another matter. There should be, for example, coming in every year a tablectoth worth 3 shillings, two white doves, two white hares, a catatwo white doves, two white hares, a catapult, a pound of cumin seed, a horse and halter, one pair of searlet hose, a curry-comb, a pair of tongs, a crossbow, a coat of gray fur, a nighteap worth a halfpenny, a lance worth 2 shillings, a falcon, a silver needle from the royal tailor and one very good and one very bad knife.

Such are a few of the numerous and other waste, a full milk choses has Such are a few of the numerous and with the best beef free from bones and other waste, a full milk cheese has 2,070 units of nutritive value against by ancient writers being that when a whale was captured on the coasts it was to be discovered. was captured on the coasts it was to be divided between the king and the queen, the former taking the head and the latter the tail. The reason of this division was stated to be that the queen's wardrobe might be furnished with whalebone for the duestiffening of the royal garments.

Whales do not frequent these parts to any great extent nowadays, but every stargeon brought to land belongs by right to the queen. One of these royal fish, caught in the Thames, figured at her wedding banquet.—Lendon Tit-Bits.

showing that even at the same prices skimmilk cheese is of considerably more value than the best of beef, in addition, the cheese, containing as it does the still existing influence of the remet in it, and this being a digestive agent, even a skimmilk cheese well enred will be not only intrinsically more nutritions than the best part of beef, but indirectly by its effect on the digestion of other food its effect on the digestion of other food it will have a considerable additional The Boston Girl.

He said that he led the german with a Boston girl once, and she asked him what he thought about "esoteric Buddhism" and if he believed in the "transmigration part in the dairy, for how enormous a changed to stem with the control of the control

In the best managed creameries it is said that two or three pounds of butter grated. After that his partner from the in every hundred are lost in the butter. "Hub" havely deigned to speak to him, so disgusted was she by this flippacey, her vate dairies. It is because of imperfect only rejoinder being "that purs were not considered a very elevated kind of wit in considered a very elevated kind of wit in the butter from the milk must be fu-

Advice For a Shilling. A certain thin man sent a shilling in post age stamps to an advertiser who promised for that sum to import trustworthy infor-mation how to get fat, and received the message on a postal eard, "Huy it at the butcher's!"-London Tit-Bits. :A Drawback.

work, varieties, and they are not only a valuable addition to table delicacies, but perform a distinct medicinal office, acting especially and beneficially upon the liver.—New York Times.
